

## Account Information

---

Dear Parent or Guardian,

I would like to tell you about an exciting educational experience that is taking place in our classroom. As you know, mastering basic words is a critical skill when young students are learning to read. To help our students develop this skill we are currently using an online software program called Sight Words with Samson.

The best part about the program is that it is available for you to use at home for free. All you have to do is follow the instructions below. Please take a moment to explore the website with your child and help them develop the skills needed to become a strong reader.

If you have any questions about Sight Words with Samson, you can email the program creators at [support@knowledgewand.com](mailto:support@knowledgewand.com).
